

THE STATE OF GUN VIOLENCE IN **WYOMING**

Wyoming's weak gun laws put its residents at risk, particularly those residents at risk for suicide. Legislators owe it to their constituents to take proactive measures to save lives from gun violence.

GUN SUICIDE

- Nearly 86% of gun deaths in Wyoming are suicides, and more than 63% of all suicide deaths in Wyoming involve firearms.
- From 2008 to 2017, 886 people in Wyoming died by gun-related suicide.

DOMESTIC VIOLENCE

- Guns make domestic violence incidents far more likely to end in death.
- 70% of Wyoming's intimate partner homicides involve a gun.

TRAFFICKING

- Because of the state's weak gun laws, guns are purchased in Wyoming and trafficked to states with stronger gun laws, where they end up in the hands of criminals and people unable to pass a background check.
- From 2013 to 2017, 1,287 guns originally purchased in Wyoming were recovered after being used in crime in other states.

YOUNG PEOPLE AND GUNS

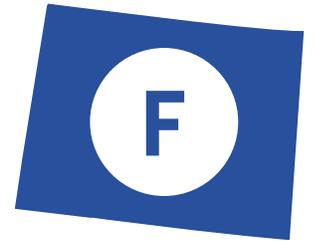

- Exposure to gun violence can cause lasting trauma in young people, leading to PTSD, chronic stress, and decreased future earnings.
- From 2008 to 2017, 178 people under age 25 were killed with a gun in Wyoming.
- Guns are the second-leading cause of death for Wyoming children ages 1-17.

PROVEN SOLUTIONS TO PREVENT GUN VIOLENCE IN WYOMING

Wyoming has some of the weakest gun laws in the country. The state has the eighth-highest gun death rate and exports crime guns to other states at the fourth-highest rate. To save lives from gun violence, Wyoming could **require background checks for all gun sales and repeal its dangerous permitless concealed carry law.**
