

May 31, 2023

The Honorable Charles Schumer
Majority Leader
U.S. Senate
Washington, DC 20510

The Honorable Mitch McConnell
Minority Leader
U.S. Senate
Washington, DC 20510

The Honorable Kevin McCarthy
Speaker
U.S. House of Representatives
Washington, DC 20515

The Honorable Hakeem Jeffries
Democratic Leader
U.S. House of Representatives
Washington, DC 20510

Dear Leader Schumer, Minority Leader McConnell, Speaker McCarthy, and Democratic Leader Jeffries:

We, the undersigned members of GIFFORDS Gun Owners for Safety, respectfully urge you not to advance S. J. Res. 20/H. J. Res 44. This resolution would repeal the Bureau of Alcohol, Tobacco, Firearms and Explosives' (ATF) Rule 2021R-08F which regulates certain models of semi-automatic pistols when equipped with stabilizing braces as short-barreled rifles under the National Firearms Act of 1934 (NFA).

GIFFORDS Gun Owners for Safety is made up of gun owners from 48 states and the District of Columbia. We represent hunters, veterans, law enforcement, and sports shooters. We advocate for policies that help prevent gun violence and also respect our Second Amendment right to own and use firearms. Therefore, we stand in strong opposition to S.J. Res. 20/H. J. Res 44.

This resolution seeks to repeal ATF's Rule 2021R-08F under the false pretense that this regulation infringes on the rights of law-abiding gun owners to own, possess, or purchase stabilizing braces.

ATF's Rule 2021R-08F does not ban any law-abiding person from owning, possessing, or buying stabilizing braces. This rule simply clarifies that certain semi-automatic pistols equipped with stabilizing braces that have objective design features that allow an individual to shoulder the firearm, are short-barreled rifles. Short-barreled rifles have been regulated by the ATF under the NFA for almost a century because they are concealable and maneuverable like a handgun but offer shooters the stability and accuracy of a rifle, with certain pistol models chambered in rifle calibers with rounds capable of penetrating soft body armor commonly used by law enforcement officers.

As gun owners, we know that a stabilizing brace does not change the caliber of the firearm or the rate at which ammunition is fired. We know that the original intent of the brace was to assist people with disabilities with firing pistols accurately and safely. But we are also acutely aware that over the years, the designs of these braces have evolved, making it easier to use them like a shoulder stock to establish a third point of contact when firing. When paired with certain semi-automatic pistol models with barrels shorter than 16 inches, like AR and AK type pistols, the addition of stabilizing braces that can be shouldered transform the handgun into a short-barreled rifle.

In the event that a gun owner is in possession of a firearm equipped with a brace that qualifies as a short-barreled rifle, there are multiple ways to comply with the regulation. One option is to detach the brace from the pistol. Another is to replace the barrel of the pistol with a barrel that is 16 inches or longer. If a gun owner wants to continue using the pistol with the brace, they can register it under the NFA. ATF has even waived the standard \$200 NFA tax stamp fee for registration of braces under this rule to ensure there is no unnecessary burden on gun owners seeking to comply with the law.

While the overwhelming majority of gun owners in possession of these braces use them responsibly, they have been used by shooters to perpetrate horrific mass shootings in Dayton, Boulder, Colorado Springs, and Nashville. These heinous acts do not represent the overwhelming majority of gun owners across the country, however the proliferation of stabilizing braces to create short-barreled rifles merit the actions by the ATF to ensure weapons are being properly regulated under federal law, for the safety of the public, including responsible gun owners.

Our nation is in the midst of a gun violence crisis that has claimed hundreds of thousands of lives. Over the span of a decade, the total number of gun deaths increased by 45 percent, with 2021 marking the latest deadly milestone of nearly 49,000 people dying from gunshot wounds. Congress should be working on policies that will prevent gun violence and keep communities safe, not repealing common sense regulations.

We, the 1,198 undersigned gun owners representing 48 states and the District of Columbia, ask you to oppose S.J. Res. 20/H. J. Res 44. We further respectfully ask that you prioritize gun safety laws that will save lives.

Sincerely,

A handwritten signature in black ink, consisting of two stylized, cursive 'G' characters.
